

Forest Road Corridor Improvement Study About This Meeting

It is an open house format. There will not be a formal presentation, but representatives from the project team want to talk with you one on one to hear your input and answer your questions.

You will find several display boards around the room that present the concepts for this project.

Forest Road: McDowell Mountain Road to Rio Verde Drive

The purpose of this Corridor Improvement Study (CIS) is to:

- Identify existing and future conditions
- Evaluate potential capacity and active transportation solutions
- Investigate alternative access into/out of the Rio Verde Area from the east side

Candidate Alternatives

Three candidate alternatives have been developed:

- No Build Alternative
- Traffic Calming with Roundabouts Alternative
- Enhanced Signing and Pavement Markings Alternative

We want your input

Your input and feedback is an important part of this process. Please take a moment to fill out the comment sheets provided.
